Institutional Distinctiveness, 2021-22

Kamrup College, Chamata, Nalbari, Assam has played a pivotal role in providing educational opportunities to the rural areas surrounding it. The College pulled its door ajar in 1966 to impart knowledge to the first generation learners of rural areas of Chamata. This Institution has earned its reputation for being one of the premier Institution in the State which is well known for academics, sports and other extra- curricular activities. The location of this College is endowed with natural beauty, serenity and tranquility. Being a Government Institution, the college has a nominal fee structure; which allows students from the socially/economically challenged backgrounds to get education in our college and therefore makes our college distinct in the district compared to other private colleges of the state, which have inflated fee structures. The performance of our students in examination is exceptional in spite of the fact that majority of them have a rural background. The secret of success is due to the remedial teaching which is undertaken to cater to the needs of slow learners.

The vision of the Institution is to mould, empower students in the pursuit of knowledge, values and social responsibility and help them achieve excellence in various fields, thereby also preparing them to face global challenges without faltering. The Institute has established its distinctive approach towards this comprehensive motto by patterning it in the form of service to the society, certificate courses or by allowing the students to organize events to develop their skills via multidisciplinary project development, Entrepreneurship development, Ethical and Human value development. The institution arranges different skill enhancement programs in due course to develop their skills. Students also undertake different internships in industries to pursue their projects by giving those hands on training in their field of interest. Ethical values are one of the foremost interest students are motivated towards. They visit orphanages, old age home and the local adopted school/village through NSS. Students have never been insensitive to the social crisis during the natural devastations. To mention and bring on record our students have contributed recently to the victims of Assam societies during pandemic lockdown era due to corona virus.

The Institute also focuses on Global Standards, Value-based Education, Interdisciplinary Research, and Sustainable Development. The structured induction of the student into the curriculum enables to visualize the career opportunities and the approach towards achieving them. The institute provides a platform to business Start-ups to develop their ideas into commercially viable products. Our Institution promises to act as a catalyst to bring about a positive change in the minds of stakeholders for the upliftment of mankind and safety of environment.
